2017 ISA Water/Wastewater and Automatic Controls Symposium
August 8 to 10, 2017 • Wyndham Lake Buena Vista Resort • Orlando, Florida, USA
Presented by the ISA Water/Wastewater Industries Division – www.isawwsymposium.com
Technical co-sponsors: Florida AWWA Section, the WEF Automation and Info Tech Committee, Florida Water Environment Association, Instrumentation Testing Association, and ISA Tampa Bay Section

2017 TECHNICAL PROGRAM
The 2017 symposium has a special focus on how automation will be involved and integrated into many of our day-to-day activities. The two-day technical program will include a keynote address, a special welcome from the director of the ISA water/wastewater division, and an invited speaker. Guest speakers from the AWWA and WEF will also speak about the current advances in using instrumentation and SCADA in their sectors.

Interested in speaking at next year’s symposium? Authors can present a 30-minute talk, 6-12 page paper, or a large format poster. The Call for Abstracts is now available at www.isawwsymposium.com/call-for-abstracts/. Abstract submissions (250 words) are due December 15, 2016. See the website for the full author kit, including the abstract submission template and paper topic ideas.

2017 REGISTRATION FEES:
Regular Rate ............................................... $450
ISA Member Rate........................................ $350
AWWA, WEF, FWEA, ITA Member Rate ..... $400
Author/Speaker Rate ................................. $150
Conference Hotel Rate........... $109/night (no resort fee will be charged. Savings of $10)
Hotel Rate cut-off date .......... July 15, 2017
Discounted block of rooms are first-come, first-serve.

2017 OPTIONAL SYMPOSIUM TRAINING COURSES
SCADA Systems Integration
Introduction to SCADA Systems Integration (IC30C1)
Date: August 7, 2017 (Monday)
Length: 1 day
CEU Credits: 0.7

This course explains the parts and technologies that make up a Supervisory Control and Data Acquisition (SCADA) system and shows you how to evaluate potential benefits of applying the technology to your process application. You will be able to explain the concepts of digital coding, protocols, and modulation methods and evaluate the benefits of several examples of Remote Terminal Units (RTUs), Master Terminal Units (MTUs), and communication methods.

SCADA Cyber Security
Using the ISA/IEC 62443 Standard to Secure Your Control System (IC32)
Date: August 7-8, 2017 (Mon-Tues)
Length: 2 days
CEU Credits: 1.4

The move to using open standards such as Ethernet, TCP/IP, and web technologies in supervisory control and data acquisition (SCADA) and process control networks has begun to expose these systems to the same cyberattacks that have wreaked so much havoc on corporate information systems. This two-day course provides a detailed look at how the ANSI/ISA99 standards can be used to protect your critical control systems. It also explores the procedural and technical differences between the security for traditional IT environments and those solutions appropriate for SCADA or plant floor environments.

2017 EXHIBITOR & SPONSORSHIP OPPORTUNITIES
Exhibitor booths for WWAC 2017 are priced at $925 and come with 2 vendor passes.
Symposium sponsorships are available at $750, $1750 and $3200 levels, with increasing numbers of free passes and pre/post-event exposure.
